

Kim Magner

B. Pharmacy, Dip. Bus Mgt, Dip Training & Assess Sys.

OVERVIEW

Kim Magner has extensive expertise in medical information and pharmacovigilance services, medical-marketing communications, including promotional and educational materials, professional and corporate communications, as well as learning and development programmes. Kim also has extensive experience in compliance with relevant industry guidelines.

Kim's versatility in compliance and communications work is demonstrated through her ability to deliver effectively to any target audience, ranging from healthcare professionals to the general public. Kim's lateral thinking and attention to detail leads to innovative ideas that are supported by evidence. As well, Kim's intimate knowledge of the Medicines Australia Code of Conduct and pharmacovigilance issues adds breadth and depth to all of the varied projects she undertakes.

Kim's extensive experience has been gained over many years across a wide range of disciplines in the pharmaceutical industry. Her professional qualifications, including being a qualified pharmacist, puts her in a unique position to create a broad range of products and programmes that add value and regularly exceed client expectations.

In addition to bringing passion and enthusiasm to each and every project, Kim seeks to understand her clients' needs quickly and with the minimum of fuss, ensuring efficient commencement and progression of all projects, at all times adhering to the highest standards of professional excellence and integrity.
